GO BEYOND READING

Continue the fun with one of these activities!

- Create a new recipe with things you find in your cupboards!
- Go for a walk and look for signs of animal life-- can you find any footprints? Who do you think they belong to?
- Make a frame for some artwork using found materials-- sticks, flowers, grass, pebbles, etc.
- Draw a map to a fantasy world or base one on your home! Don't forget to include a map legend.
- Practice making music with a new instrument, even if its one you create!
- Choose a village in rural Alaska to research. What Alaska Native tribes are stewards of that land? What's notable or interesting about that place? What do you think daily life is like there?
- Go for an Alphabet Walk-- see if you can find all the letters of the alphabet as you stroll along your neighborhood! Look at street signs, license plates, advertisements, etc.
- Talk to someone you haven't seen in awhile-- it could be mailing a letter, sending an email, giving them a call, or video chatting! Share your best memories with each other.

- Draw your own comic book!
- Find a cause you're interested in and start a fundraiser.
- Interview a family member and learn more about them!
- Write a journal as if you were someone else-- need some ideas? Try writing as an Iditarod musher, the first person on Mars, or an alien who crash landed in Alaska.
